

August 21, 2020

To our valued Patients,

The team at Associates in Primary Care sincerely hopes this message finds you and your families healthy and well during this time.

The safety and health of our patients, staff and community remains our top priority.

We continue to closely follow the recommendations of the Centers of Disease Control (CDC) and are taking every precaution to protect our community and minimize the spread of Covid-19. In accordance with the CDC recommendations, we have made changes to the way that we deliver care. These changes include:

- Temperature checks for all staff.
- Temperature checks for patients prior to entering the office.
- No outside visitors permitted within the office during treatment times.
- Personal Protective Equipment donned at all times by staff members: Mask
- Maintain six feet of distance between patients in waiting and after treatments.
- Continued use of Telehealth & Home visits for higher risk or home bound patients.

These alterations will assure the safest environments while allowing Primary care provider to continue to deliver optimal care and for our patients to attain the best outcomes.

Yours in good health,

Kim Eugair MSN, FNP -C *Family Nurse Practitioner*

Brooke Larmie MSN, FNP, ANP – BC *Adult Nurse Practitioner*

and the staff at Associates in Primary Care
